

89bio Announces Inducement Grants Under Nasdaq Listing Rule 5635(c)(4)

August 9, 2024

SAN FRANCISCO, Aug. 09, 2024 (GLOBE NEWSWIRE) -- 89bio, Inc. (the "Company" or "89bio") (Nasdaq: ETNB), a clinical-stage biopharmaceutical company focused on the development and commercialization of innovative therapies for the treatment of liver and cardiometabolic diseases, today announced that the Compensation Committee of the Company's Board of Directors approved the grant of non-qualified stock options to purchase an aggregate of 19,800 shares of the Company's common stock to two new employees and 350,000 shares of the Company's common stock to the newly-hired Chief Operating Officer, Francis Sarena (the "Inducement Grants") on August 5, 2024 (the "Grant Date"). The Inducement Grants have been granted pursuant to the Company's 2023 Inducement Plan (the "Plan"). The Inducement Grants were granted as an inducement material to these individuals entering into employment with 89bio in accordance with Nasdaq Listing Rule 5635(c)(4).

The Inducement Grants have an exercise price per share that is equal to the closing price of 89bio's common stock on the Grant Date. The Inducement Grants will vest over a four-year period, with 25% of the shares vesting on the one-year anniversary of the employee's start date, and thereafter the remainder of the shares vest in 12 equal quarterly installments, subject to each employee's continued employment with 89bio through the applicable vesting dates.

About 89bio

89bio is a clinical-stage biopharmaceutical company dedicated to the development of best-in-class therapies for patients with liver and cardiometabolic diseases who lack optimal treatment options. The company is in Phase 3 studies for its lead candidate, pegozafermin, for the treatment of metabolic dysfunction-associated steatohepatitis (MASH) and severe hypertriglyceridemia (SHTG). Pegozafermin is a specifically engineered, potentially best-in-class fibroblast growth factor 21 (FGF21) analog with unique glycoPEGylated technology that optimizes biological activity through an extended half-life. The company is headquartered in San Francisco. For more information, visit www.89bio.com or follow the company on [LinkedIn](#).
